

electrify eLight Series

NEW

Smart lighting
for the outdoor area
from hesotec.

Our eLight is a premium-quality outdoor lighting fixture that we have developed to wrap your garden, terrace or entrance area in a very special ambience. With a combination of noble design and state-of-the-art technology, the eLight fits seamlessly into any environment - and also into your electrify charging infrastructure.

Advantages at a glance

-  **High quality components**
The optionally configurable sockets and switches are weatherproof (IP44), and thus ideally suited for outdoor use.
-  **Ideal complement**
The lights harmonise perfectly with the electrify charging solutions.
-  **Free choice of lamps**
All illuminants in the size 60x110 mm E27 can be used. Replacement is possible at any time.
-  **Variable connection**
Diverse connection variations for optimal integration of the eLight into existing systems.
-  **Aesthetic design**
With the discreet light strip and the high-quality stainless steel housing, the eLight is visually convincing all along the line.
-  **High quality stainless steel**
The thick-walled stainless steel housing and the high-quality workmanship of our lightings guarantee the highest quality.

Individually configurable

The eLight series offers a wide range of sizes and features and can be individually adapted and configured.

Height	Illuminant		Colors*		
	White	Philips HUE (Color)	Stainless steel brushed	Black matt (RAL 9005)	RAL Desired color
Small (S)			 	 w/o	 1-fold (Single)  2-fold (Double)
Standard (L)			 	 1-fold (Single)	 2-fold (Double)  3-fold (Triple)

Colors*: Each colour variant can be combined with both light sources and with the socket options.

Simple and quick assembly

For the eLight series, we also use the push-in connection already evaluated for the charging solutions. The plug-in jumper system in the connection adapter enables an individually adaptable power supply for sockets and lighting.

General technical details

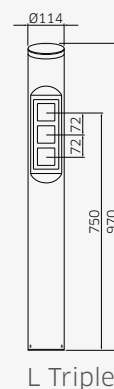

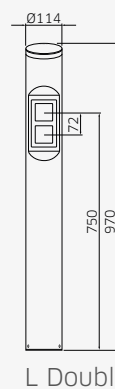

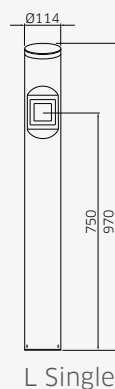

Supply voltage	230 V
Rated current	max. 16 A
Connection type	Push-in connection
Wire cross section	0.14 mm ² – 4 mm ²
Wire cross section with ferrule	0.14 mm ² – 2.5 mm ²
Connection options	Separate connection of sockets and lighting possible by removing the jumpers
Protective class	1
Socket	E27 max. 4/250
Illuminant	depending on version (60x110 mm)
Energy efficiency class	F
Number of sockets	depending on version (0 to 3 pcs.)
Theft protection	Safety screws
Operating temperature	-20 °C to +45 °C
Protection class	IP44
Material	VA 1.4301
Material thickness	2 mm

Dimensions of the eLight series

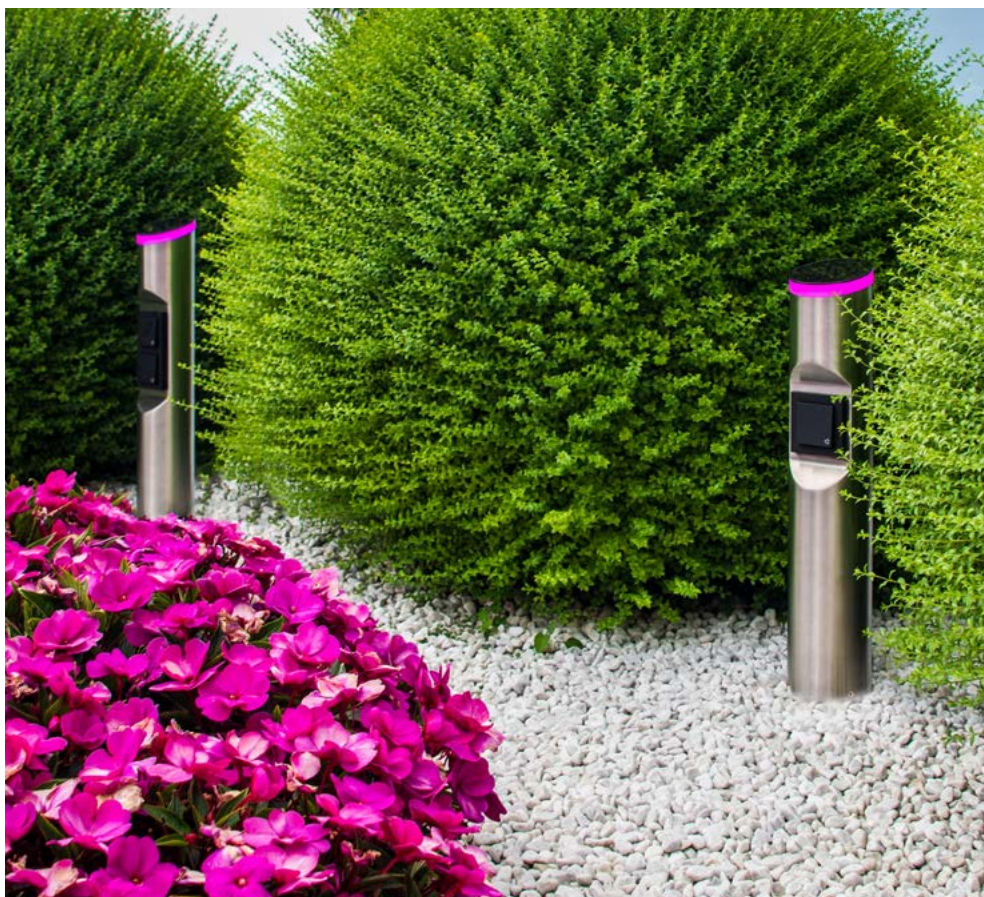

Small (S)

Standard (L)

The millimetre specifications are valid for each colour and lamp variant.
